Allowable Subject Matter

1. Claims 6-14 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. The remarks made by the applicant in the response filed on July 14, 2005 are persuasive. Applicant correctly summarizes the prior art of Kawanami et al. at page 7 of the response. While Kawanami et al. teaches the use of a beam shaping aperture optimally in the shape of a regular polygon, there is no explicit teaching towards an ion beam having "one sharp edge corresponding to at least one aperture edge." This limitation, taken with the other limitations of claim 6 as a whole, elevates the invention recited in claim 6 over the prior art and is the main reason for allowance.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
